The University of Wisconsin-Madison’s
Women Faculty Mentoring Program

invites you to
Get Connected!

Our goal is to make sure every woman on campus feels welcome and connected, both personally and professionally. We challenge you to help us realize this goal by creating informal peer mentoring networks that foster collegiality, promote learning, spark new ideas for research, and help women find their way through the university.

We can imagine many possibilities. You might be principal investigators, new administrators, untenured women, single mothers, women of color, senior women, women in science...

Informal peer mentoring groups can accomplish many things. They offer opportunities for networking and foster collegiality. They allow members of our academic community to share skills and resources. They provide a safe space in which peers can learn from each other.
